## SUMMARY

Java Developer with 5+ years of experience in end-to-end development and building scalable backend systems using Java. Skilled in team leadership, client communication, and delivering high-impact solutions for government and enterprise clients.

## EXPERIENCE

### Senior Associate

PwC India

October 2023 - Present, Kolkata

- Led **end-to-end development and maintenance** of **6 enterprise-grade modules** as a **Senior Java Developer**, covering meter data management, energy accounting, and financial systems across **7+ states** for a **Government of India** power sector client.
- Participated in **client visits** to **2 northeastern states (Assam and Manipur)** during SAT, Go-Live and AMC activities.
- Utilized **Java, Oracle DB, PL/SQL Stored Procedures, JDBC, Spring Boot, REST APIs, Thymeleaf, JSPs, and Servlets** to design and develop **scalable, secure** systems with a focus on **99.9% uptime** and high transactional accuracy.
- Developed a **robust payment processing module** from scratch, managing **inward/outward transactions of 10+ crore/month** via secure **banking APIs** and **API Gateway** integrations.
- **Reduced database load by over 50%** by implementing **server-side caching using Ehcache**, improving response time and optimizing system performance for high-frequency requests.
- Executed security enhancements by implementing **SSL, secure cookie headers, login captcha, and session hijacking protection**, adhering to **100% of VAPT team recommendations**.
- Collaborated with **6+ stakeholder teams** to gather and analyze **20+ complex requirement sets**, ensuring timely and accurate delivery of compliant solutions.
- Conducted **weekly code reviews** and mentored **3 junior developers**, improving code quality and reducing post-deployment issues.
- **Led the deployment of 10+ modules**, ensuring zero-downtime rollouts and post-deployment validations.
- Participated in **UAT and L2/L3 production support**, resolving **95% of critical issues** within SLA timelines.

### Technology Analyst

Infosys Ltd.

November 2019 - October 2023, Bhubaneswar

- **Offshore lead** of the domain's Java team. **Led, managed, and mentored a team of 5 developers**, delivering solutions for a **top U.S.-based healthcare insurance client** serving **millions of customers nationwide**.
- Interacted directly with **U.S. client teams** to gather and finalize **40+ business requirements**, overseeing full-cycle implementation and deployment.
- **SME of 10 Java-based web applications, 26 REST/SOAP web services, and 7 batch jobs**, hosted across **Azure Cloud, WAS (WebSphere Application Server), and RHEL 6/7 servers**, supporting over **100K daily users**.
- Debugged and analyzed **Java and COBOL stored procedure issues**, resolving **~50+ critical production defects** with root cause documentation.
- **Implemented 20+ code changes** that resulted in a **100% reduction in logged tickets**, significantly **reducing manual effort**.
- Optimized **10+ services** to handle **2x-3x increased production load**, eliminating **100% of DB2-related production failures**.
- Recognized as **SPOC** and a **Change Management Champion** for the domain's Java applications.
- Led **P1, P2, P3 incident calls** (over **10+ bridge calls**) coordinating with **Cloud, DevOps, F5, and DBA teams** to execute priority fixes and minimize downtime.
- **Interviewed and onboarded 4 developers**, ensuring technical alignment and ramp-up within **2 weeks** per resource.

## PROJECTS

---

### Dental Clinic Management System

Personal Project • January 2025 - Present

- Designed and developed a **full-stack dental clinic management system** with **automated emails**, **Google Maps API (iframe)**, and **WhatsApp chat widget**, supporting **multi-role access**.  
**Tech Stack:** Java, Spring Boot, Thymeleaf, Oracle DB.

## EDUCATION

---

### Bachelor of Engineering

AMC Engineering College • Bangalore, India • 2019 • 7.5 CGPA

## SKILLS

---

**Programming Languages & Frameworks:** Java, Spring Boot, Spring Core, Spring ORM (JPA/ Hibernate), Spring Security, Spring JDBC, Spring MVC, Thymeleaf, JSP, Servlet, SQL, PL/ SQL, Python, C, C++, Basics of HTML, CSS, JavaScript, Linux.

**Tools:** Azure DevOps, Splunk, Jenkins, Git, SOAP UI, Service-Now, OpenShift, Octopus Deploy, Urban Deploy, Microfocus Rumba, Postman, Tableau, Venafi, Tableau.

**Databases:** Oracle DB, IBM DB2, MySQL.

## AWARDS & HONORS

---

### Above & Beyond Team Award

PwC India • 2024

- Received the Above & Beyond Team award for delivering projects and accomplishing successful Go-Live of applications across multiple states.

### Multiple Insta Awards

Infosys Ltd. • 2023

- Received multiple Insta Awards for excellent performance throughout the tenure at Infosys.

### RISE Unit Excellence Award 2022

Infosys Ltd. • 2022

- Received the unit excellence award in the year 2022.
-
